THE VILLAGEOS CHARTER OF VALUES

Why Values Matter

A village is more than a collection of buildings, farms, businesses, or people.

A village is a living system built on shared principles, mutual responsibility, and a commitment to improving the quality of life for everyone involved.

VillageOS exists to help create thriving communities where people can work, learn, grow food, build meaningful relationships, and contribute to something larger than themselves.

These values serve as the foundation for every decision, project, partnership, and interaction within the VillageOS ecosystem.

OUR MISSION

To create thriving villages that improve the quality of life for individuals, families, communities, and future generations through stewardship, responsibility, collaboration, and innovation.

OUR VISION

A future where villages become centres of prosperity, education, food production, entrepreneurship, housing, wellness, and community life.

A future where people are connected to the land, each other, and a shared purpose.

CORE VILLAGE VALUES

1. STEWARDSHIP

Leave It Better Than You Found It

Everything entrusted to us should be improved through our care and participation.

This includes:

- The land
- Buildings
- Equipment
- Relationships
- Knowledge
- Community assets

We recognize that we are temporary caretakers of resources that must serve future generations.

2. RESPONSIBILITY

Ownership Creates Progress

Every member has a responsibility to contribute positively to the village.

We encourage:

- Accountability
- Initiative
- Reliability
- Self-discipline

We avoid blame and focus on solutions.

Strong villages are built by responsible people.

3. CONTRIBUTION

Give More Than You Take

Village life succeeds when members contribute their time, knowledge, skills, and effort.

Contribution can take many forms:

- Physical work
- Teaching
- Mentorship
- Problem solving
- Community service
- Leadership

Every contribution matters.

4. RESPECT

Respect People, Property, and Nature

Respect is the foundation of trust.

We commit to respecting:

- Fellow members
- Volunteers
- Visitors
- Staff
- Neighbours
- Animals
- Crops
- Shared resources

Disagreement is acceptable.

Disrespect is not.

5. COMMUNITY

We Are Stronger Together

Villages thrive when people support one another.

We encourage:

- Collaboration
- Mutual aid
- Friendship
- Shared learning
- Community participation

Success is not measured solely by individual achievement, but by the health and strength of the community as a whole.

6. LEARNING

Every Day Is an Opportunity to Learn

VillageOS values continuous learning.

We support:

- Education
- Skill development
- Apprenticeship
- Mentorship
- Experimentation
- Innovation

Mistakes are opportunities for growth when approached honestly and responsibly.

7. ENTREPRENEURSHIP

Create Value for Others

Villages prosper when individuals create value through initiative and innovation.

We encourage:

- Small business development
- Local enterprise
- Problem solving
- Creativity
- Leadership

Entrepreneurship strengthens both the individual and the community.

8. FOOD & SELF-RELIANCE

Healthy Communities Begin With Healthy Food

Food is one of the foundations of village life.

We value:

- Local food production
- Regenerative agriculture
- Food education
- Food security
- Healthy lifestyles

The ability to produce food locally increases resilience and community well-being.

9. SUSTAINABILITY

Think Generations, Not Quarters

Every decision should consider its impact on future generations.

We strive to:

- Reduce waste
- Build durable systems
- Improve resource efficiency
- Protect natural ecosystems
- Strengthen local economies

Sustainability is not a trend—it is a responsibility.

10. COMMON SENSE

Practical Solutions Create Better Outcomes

VillageOS believes common sense should guide decision-making whenever possible.

We value:

- Simplicity
- Efficiency
- Transparency
- Practicality
- Results

Good ideas should be easy to understand and easy to implement.

THE VILLAGE COMMITMENT

As members of VillageOS, we commit to:

- Respecting the land
 - Respecting each other
 - Contributing to the community
 - Taking responsibility for our actions
 - Learning continuously
 - Supporting local food production
 - Building stronger villages
 - Leaving things better than we found them
-

WHAT SUCCESS LOOKS LIKE

A successful village is one where:

- People know their neighbours
- Children have opportunities to learn and grow
- Food is produced locally

- Skills are shared freely
- Businesses thrive
- Families prosper
- Resources are respected
- Communities become more resilient

Success is measured not only by economic prosperity, but by quality of life.

THE VILLAGEOS PLEDGE

I recognize that being part of a village comes with both rights and responsibilities.

I commit to acting with integrity, respect, and stewardship while contributing positively to the VillageOS community.

I will strive to leave the village stronger, healthier, and more prosperous than I found it.

ACKNOWLEDGEMENT

I have reviewed and understand the VillageOS Village Values document and agree to uphold these principles while participating in VillageOS programs, projects, farms, and community activities.
